## A message from Kaitlin

Welcome back families to term 3. We are looking forward to more outdoor play as the weather warms up. We do ask that all children still come with jumpers, especially for the morning and end of day times when the temperature cools.

We have noticed we have a lot of children who love physical play. We have been tweaking our afternoon tea and handwashing routines to try and get the children out to play as soon as possible whilst allowing the children who prefer downtime, more space to graze at afternoon tea and sit and chat with their friends.

We have been very proud of the art and craft the children have been creating lately. We will be adding to our loose parts collection and programming more art and craft experiences over the coming week

Thankyou again to all families for their continual support 😊

I like to  
play with  
my friends"

### Our Spotlight Culture

Our term 3 focus culture will be Austria!!!!

We are excited to learn with the children all about Austria and create experiences that celebrate the Austrian culture.

If you have any cultural connection with Austria and would love to help us learn and celebrate, please speak to either Kaitlin or Tammie

# Our Reflections

We are currently focussing on helping children reach their developmental goals, whether it be learning to share, learning to be a leader or learn how to make new friends. You can find your children's current goals through Storypark or speak to any of our friendly Educators

# *Quality Improvement*

We have had staff change overs over the last few months. Our focus has been on ensuring the children still feel settled and safe in the service.

Fostering positive relationships between staff and children.

# Community Events

In celebration of this years book week, Mandurah Libraries are holding a poster competition ending 31st July. Please visit the Mandurah website or head into your local Library
